## PROFILE

MERN Stack Developer with a strong foundation in building responsive, scalable web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in integrating RESTful APIs, managing application state with Redux Toolkit and Context API, and implementing clean, maintainable code. Passionate about UI/UX design, open-source contributions, and enhancing web performance. Experienced in deploying applications using GitHub Actions, Vercel, and Netlify. Actively seeking opportunities to work on challenging full-stack projects and contribute to impactful solutions.

## PROJECTS

### Full Stack Blog Website

Users can create, edit, delete posts; rich-text editor; authentication and authorization; dark/light theme switcher; users can also add likes, comments, and tags.

### Full Stack Task Management App

Role-based authentication, task creation & tracking, secure backend using Express and MongoDB, and responsive frontend with React.

### E-Commerce Website

Fully functional online store with product listings, shopping cart, user authentication and responsive UI using React Js and Redux Toolkit
